jholit@protonmail.com

Product Designer focused on user flows, information architecture, interaction design, and usability. Designs clear, structured experiences by aligning user needs with system logic to reduce friction and improve usability.

PRODUCT DESIGNER

EXPERIENCE

Target Corporation, Abington — Guest Advocate

OCT 2025 - SEPT 2025

- Managed high-volume, real-time user interactions in a fast-paced environment
- Identified inefficiencies in workflow and adapted processes to improve speed and consistency
- Maintained strong situational awareness and responsiveness under changing conditions
- Applied user-focused thinking to ensure clear, efficient, and reliable service outcomes

Walgreens, Rockland, MA — Customer Service Associate

OCT 2024 - JAN 2025

- Built strong user empathy through daily customer interactions.
- Improved communication clarity and expectation management across varied user needs.
- Applied usability-focused thinking to resolve issues efficiently and consistently.

PROJECTS

Project Name — Product Design Case Study

- Defined problem and user context
- Mapped user flow from entry to outcome
- Designed wireframes and high-fidelity screens
- Built prototype demonstrating end-to-end interaction
